

BACK ON THE FORCE

But Madigan Mustn't Let it Happen Again,

WELD THE HAWKINS MEDALS

Nobody on the Force Has Had a Chance to Distinguish Himself During the Past Year.

The full board of police and fire commissioners was present yesterday except President Lettitt and in his absence Commissioner Lettitt occupied the chair.

Fire Marshal Lemmon made a brief report. He stated that a short time before dinner a difficulty had occurred between Conductor Powers of a street car running on the West side and Lineman Johnson of the fire alarm service. The conductor was hit by a stone thrown by the lineman, who was trying to ride free, though not in full uniform. Powers' injury is serious.

Superintendent Eastman reported that he thought \$15 a month a just compensation for special police patrol in Lincoln park. He reported that the board of fire commissioners offered to pay the reward of \$150 offered for the arrest of an escaped prisoner. The prisoner was arrested by Detective Joseph Smith on information furnished by a Berrien county deputy. He thought that the local department should have at least half the reward. He reported that there were two vacant places in the department, one caused by the resignation of Patrolman Pomeroy and the other by the resignation of Patrolman Madigan. He recommended that John Lippinski, a fourth ward special constable, be granted a key to the fire alarm box in his vicinity. Commissioner Bender and the superintendent had a little squabble over the system of compensating the payment of bills. Commissioner Bender said that bills must be presented once a month and be more carefully "O. K.-ed."

Policeman for Lincoln Park

Under the head of communications the board received and accepted the resignation of Thomas Pomeroy as patrolman. Superintendent Eastman submitted the names of William Young, L. Reeves and William Little, and said that they would make good special policemen for Lincoln park. Referred to committee on men and discipline. S. A. Welch of the police department asked for twenty-eight days leave of absence, beginning July 2. Marshal Lemmon reported sixteen alarms turned in since June 3. Judson L. Smoke asked to be reinstated on the police force. He was retired January 3, 1932. Men and discipline. Robert J. Reedy and George B. Kelly applied for the position of building inspector. Placed on file. The request of the council for a fire alarm box at the corner of Marion and Jackson streets was referred to the committee on men and discipline. The council's request that the superintendent of fire alarm be detailed to make tests of electric lights with the committee on lamps, which was referred to the board, was discussed and will be again considered by the board and the committee on lamps. Frank H. Fes, the transit officer, asked that his salary be raised on the plea that he was obliged to expend \$230 a year for maintaining a conveyance which is subjected to rough usage. Committee on finance.

Will Recompense Tatro

The committee on finance recommended that Officer Tatro be allowed two-thirds pay from the time of his injury until his return to duty and \$10 for doctor's fees. Adopted.

The same committee recommended that William Reeves be allowed \$15 for time lost and for doctor's bills, resulting from injuries received while helping the firemen at the corner of State and Second. Decision deferred one week.

It was decided to hang up the Hawkins medals for another year, as no member of the fire or police departments has had opportunity to perform any especially hazardous act during the past year.

The committee on men and discipline recommended that Timothy Madigan be ordered back to duty June 21, that for the twenty-five days following that date he receive but \$10.00 a day; that he be reprimanded by the board and informed that the second offense would probably be followed by dismissal. It was decided that no persons should be granted keys to fire alarm boxes, except under very extraordinary circumstances. The matter of moving into the new headquarters was placed in charge of the building committee, without any directions except that no old furniture be moved into the new structure. The matter of making up of the annual report and book was left in the hands of the board and the committee on lamps. Bids will be asked for 500 copies of the book. It will have about 125 pages.

STRUCK WITH A STONE

George Powers Seriously Injured in a Street Car Fracas.

Elmer E. Johnson, an employee in the electric end of the fire department, was arrested yesterday for deadly assault on George Powers, a conductor on the Wealthy avenue and Scribner street car line. Johnson was attending to his duties as inspector of fire alarm boxes and took Powers' car at the corner of Henry street to ride a few blocks to the next box. The conductor demanded his fare, but was refused, Johnson claiming that he was entitled to ride free under the rules. He did not have his uniform on at the time, which is one of the regulations to enable firemen and police to free passage. He, however, wore the regulation straw hat, which he claimed to be indicative of his position. This would not satisfy the conductor and he insisted on having his fare. The car was stopped at the corner of Centennial street and Johnson said he would get off as he had ridden as far as he wished. A little tussle followed between the two men and the conductor called the motor man to assist him in putting Johnson off the car. He says the two men pushed him from

the car and came at him. He picked up a stone and hit Powers on the head just back of the ear, knocking him down. Powers was injured with cold water and made his way to the lake, but on his return fainted away and had to be removed to his home. Dr. Graves was called to attend him and says his condition is very serious. Johnson was arraigned in police court yesterday afternoon on a charge of deadly assault and the hearing was adjourned to July 5. Motorman Anderson said that Johnson refused to leave the car and that after he had been picked up a stone was thrown at him a foot away and threw it at Powers with all the force he had. It is feared that the injuries produced concussion of the brain.

Circuit Court Jury Excused

Yesterday closed the jury trials in the old circuit court rooms and the jury was excused until August 23. When the jury returns the following cases will be heard in their order in the new court house: 2, 6, 7, 10, 12, 14, 19, 24, 27, 28, 29, 30, 33, 39, 40, 41, 43.

Motions will be heard in the old court room Monday for the last time. Motion day will be on Monday of each week thereafter in the new court house with the exception of July 4.

Will Arrest Mr. Luce

Some time ago the council condemned a piece of property, owned by B. C. Luce, between Fifth avenue and South Union street and purchased it for the opening of Paris avenue and Bradford street. Mr. Luce tore up 182 feet of the sidewalk, claiming it was not included in the sale, and refused to replace it, as ordered by the council. Yesterday morning City Marshal Bragg swore out a warrant from police court for the arrest of Mr. Luce.

Approved a Recognizance

Lewis H. Booren of Sparta was convicted before a justice of the peace of that village of violating a village ordinance and was sentenced to the county jail for twenty days in default of paying a fine of \$15 and costs. Circuit Court Commissioner Constock yesterday accepted and approved a recognizance on appeal after commitment and transmitted the same to the justice for return to the circuit court.

Issued an Injunction

Judge Burlingame has issued an order to show cause why a preliminary injunction should not be issued restraining Joseph W. Oliver et al. from instituting proceedings to collect the amount of a certain judgment recently obtained by Oliver against Perkins in the superior court and affirmed in the supreme court. The matter will be taken up Monday.

Bridner Held for Examination

George Bradner, who was arrested Thursday on a complaint charging him with attempting to poison George Murray of Grand Rapids township with para green, was arraigned in Justice DeWolf's court yesterday and pleaded not guilty. He was held for examination.

Claims John Stole Gin

Nick Fink, proprietor of a hotel in Plainfield township, swore out a warrant in Justice Brown's court yesterday for the arrest of John Scanlon who, he says, stole a quantity of gin and cigars from his house on June 21.

Sued to Recover Payment

The Woodland Roller Mill company began a suit in the circuit court yesterday against Ira C. Hatch to recover payment of a debt of \$300 claimed to be due the plaintiff.

Police Court Notes

The hearing of Rat Dam, who was arrested and held for examination on an application to furnish bonds to keep the peace was adjourned in police court yesterday until June 27, at 9 a. m.

Robert Catterbach was fined \$5 and costs in police court for vagrancy yesterday and being unable to pay the amount was committed to the county jail for thirty days.

Reubin Finni was arrested yesterday for not having procured a license to run his transfer business and he will have a hearing in police court July 1, at 3 p. m.

Yesterday Andrew J. Kidler was held by Judge Hagerty for trial in the superior court on a charge of keeping his saloon open on Sunday.

Ed Winchester paid the costs yesterday in police court and sentence was suspended upon him for violating the nuisance ordinance.

GOLDS AND HIS SON

Young Golds' Claims That His Father

TRIED TO POISON THE FAMILY

The Old Man Is Lodged in Jail and the Family Skeleton Will Again Be Exhibited.

Yesterday Deputy Sheriff Leonard arrested George Golds of Ada township on a warrant sworn from Justice Westfall's court by his son, Fred, who charges his father with having attempted to poison him and his family by putting poison in some groceries that had been purchased for family use. The old gentleman recently sold his farm to his son on condition that he be supported the rest of his life. Some difficulty followed and the defendant's wife had him arrested and asked that he be put under bonds to keep the peace. When he was arrested on the first process the officer gave him time to attend to his chores and he went into the pantry to strain the milk. His case was tried and dismissed by Justice Hydon and Golds then came to this city to live with his daughter, Mrs. Frank Withey of East Bridge street. The son brought the milk, some tea, sugar, etc., to the city, saying that his father, on the day of his previous arrest had put a quantity of Paris green into them for the purpose of poisoning him and his family, but had been discovered in time to avert danger. The old gentleman claims that the family are all arrayed against him and that they are trying to get rid of him. He pleaded not guilty to the charge of poisoning yesterday afternoon and gave bail to the amount of \$1,000 for his appearance July 5 for examination.

WILLIAM M. FISHBACK

The Democratic Candidate for Governor of Arkansas.

Hon. William Maude Fishback, whom the Democrats of Arkansas have named for next governor of that state, is a living illustration of the sudden and tremendous changes in southern politics. He was born Nov. 5, 1881, in Colquhoun county, Va., his mother's people being English and his father's German. He was educated at the University of Virginia, read law in Richmond and located in Arkansas in 1898.

His advent there was at the beginning of that fierce struggle which ended in civil war, and he was an uncompromising Union man from the first. As such he was elected to the convention of 1891, such he remained through the war and was elected to the United States senate in 1894. But when the reconstruction measures were in progress he opposed them and has since been an active Democrat.

After serving in the legislature and constitutional convention of 1874, besides other public services, he is now a candidate for governor as an avowed "original Union man." Most of the old Confederate soldiers supported him, and 438 of the 529 votes of the convention were instructed for him.

Exonerated the Exposition

On the first of June an exposition was opened at Quito, the capital of the republic of Ecuador, for the purpose of showing articles collected for the Chicago fair and also to give an opportunity to foreign manufacturers and merchants to display their wares. The first suggestion of this came from Mr. Tiedel, the special commissioner of the Columbian exposition, and it was hoped that the industries of the United States would be well represented. The Latin American department is now informed that it is a matter of considerable surprise and comment on the west coast that not one American house is represented at the Quito fair, while Germany and England have sent many small wares and some portable agricultural machinery. This fair was duly advertised and the statement made that American manufacturers would be admitted free of duty and transported to Quito from the seaport of Guayaquil at the expense of the government. Here and there a few articles of the principal products of the United States on sale, with now and then a cargo of California flour. The lack of response to the cordial invitation given to the merchants and manufacturers of the United States by the Ecuadorian government is a great disappointment.

The Guatemala Building

The exposition commission of the republic of Guatemala has arranged for a contest at which architects may submit plans for the building of that country to be erected on the grounds at Chicago. The architects must be residents of Guatemala, and the building must be of a character to be easily transported to that country and re-erected at its capital after the close of the exposition. It is not to cost more than \$20,000, and the space of two acres has been reserved for it. A building is desired which shall be typical of the country, and plans of \$400 are provided for. The completed designs will be opened on July 4 next.

The Largest Gardens

It may be only the effectiveness of the exuberant imagination of a sensational correspondent, but one of the guild, in the course of a very interesting letter, says that there is an immense garden in China that embraces an area of 25,000

square miles. It is an enormous land and is filled with lakes, ponds and swamps. Altogether it is as large as the states of New York and Pennsylvania combined.

North Carolina's Democratic Leader

Elías Carr, the Democratic nominee for governor of North Carolina, was born in Edgecombe county, that state, fifty-one years ago. He is the son of James Carr, formerly a noted agriculturist and owner of the big Bracebridge estate, and on being notified of his selection by the convention remarked in his speech of acceptance: "I know how to do only two things. One is to superintend a farm and the other is to vote the Democratic ticket." Candidate Carr is a man of fine education, and has studied at the University of Virginia and the University of North Carolina. He has what is considered the finest plantation in the state, and has long been prominent in all movements tending to benefit farmers. The present, however, is his first political venture. He married Miss Eleanor Kearney just before the war and has a charming family.

Ladies, You are invited to call at

Julius A. J. Friedrich's music store and get, free, a copy of the latest lyric success, "He stands Between Love and Duty."

Every hat, trimmed or untrimmed,

of the most stylish straw or crepe, also all kind of sailors, even white leghorn sailors, the latest from New York, for ladies, must be closed out, at an unusually low cost in Berwin's millinery parlors, No. 27 Canal street.

Ice

G. R. Ice and Coal company. Telephone 169.
